

License Statistics v6.21 Release Notes

License Statistics version 6.21 includes the new features, enhancements and fixes detailed below. Most of these improvements were made in response to [customer feedback](#). For more information on how we incorporate customer feedback into our development process, see [Customer-driven development](#).

When upgrading from License Statistics v6.17 and newer on Linux, use the [DEB](#) and [RPM](#) installers to update your installation automatically.

In addition to learning about the changes in this release, we highly recommend reviewing the [License Statistics v6.18 Release Notes](#) if you are upgrading from an older version.
