

Soap_ActivationCounters

The information on this page refers to SOAP version 2, which removed free activations. If you are using SOAP version 1, refer to [documentation for SOAP version 1](#).

The Soap_ActivationCounters object represents an activation counter in LAC. This object is used to get counters of LAC activations for a logged-in vendor.

Soap_ActivationCounters contains the following properties:

Property name	Type	Description
<i>ActivationSubscriptions</i>	ArrayOfSoap_ActivationSubscription	Array of activation subscriptions.
<i>one_time_activations_left_count</i>	integer	Number of remaining one-time activations.
<i>one_time_activations_expiration_date</i>	string	Date of expiration for one-time activations.
