

# Removed features

This section includes documentation for functionality that no longer applies to the current version of LM-X. If you are running an older version of LM-X, you may refer to these sections for information applicable to your LM-X version.

Removed or outdated functionality includes:

Feature	Removed in
<a href="#">Installing and uninstalling a license server on Windows</a>	v4.4.3
<a href="#">Installing a license server on Mac OS X</a>	v4.4.3
<a href="#">LMX_AtExit</a>	v4.6
<a href="#">Web-based UI</a>	v4.8
