

Features Realtime Reservations

The information on this page refers to License Statistics v6.19 and newer, which added the ability to select all features/license servers for which to view reservations. If you are using an earlier version, please refer to the [documentation for earlier versions](#).

The **Reservations** page under the **Features: Realtime** section in the left navigation pane gives you an overview for all reservations for the selected feature or all features. See [License Reservations](#) for more information about which license servers support reservations.

General Information

The General Information area at the top of the page includes [identifying information for the feature](#) and lets you select all features or individual license servers and features for which to view reservations.

Realtime Feature Reservations grid

The Realtime Reservations grid shows the reservation information for the selected license server and feature.

Realtime Reservations For Feature **app2 (v1.0, Floating)** On License Server **custom**

	1↑ Type	Pattern	Total	Remaining	Start Time	Expiration Time	Last Active	Action
1	User	user1	5	4			2021-11-09 14:55	
2	Host	host1	1	0		2012-01-01 00:00	2021-11-09 14:55	
3	IP	127.0.*.*	1	0	2012-01-01 00:00	2013-01-01 00:00	2021-11-09 14:55

Last Active	<p>The last time at which the reservation was queried from the license server.</p> <div>  <p>The color of the text used for "Last Update Time" indicates the minutes elapsed since the reservation was active:</p> <table> <tr> <th>Minutes elapsed</th><th>Color indicator</th></tr> <tr> <td>0 - 10</td><td>Green</td></tr> <tr> <td>10 - 20</td><td>Orange</td></tr> <tr> <td>20 or more</td><td>Red</td></tr> </table> </div>	Minutes elapsed	Color indicator	0 - 10	Green	10 - 20	Orange	20 or more	Red
Minutes elapsed	Color indicator								
0 - 10	Green								
10 - 20	Orange								
20 or more	Red								

You can add the Feature Reservations grid to the License Statistics Dashboard. Learn more about [customizing the Dashboard](#).

Reservation details

If the reservation is active, you can click the view icon under the Action column to see a list of the user sessions that match the reservation.

Note that this is only an approximate list of sessions that match the reservation pattern. Based on available data it's not always possible to determine if the specific session uses a specific reservation. This list may contain more sessions matching the pattern than really used from the reserved pool.

On the grid below you can see the list of all sessions matching the pattern. License Statistics matches the reservation pattern to the sessions using the following types:

- User
- User Group
- Host
- Host Group
- IP
- Autodesk ID

Reservation Details: User (user1)

	User	Host	Used	Checkout Time	Time Used	Borrow Expiration
1	John	host1	2	2020-01-08 08:00	3 m 13 d 23 h 41 min
