Feature reports for realtime usage

The information on this page refers to License Statistics v6.14 and newer, which reorganized reports. If you are using a version previous to v6.14, see Removed Features. Also note that for a limited time, the old menu structure in the License Statistics UI will be retained, so if you cannot locate what you're looking for with the new menu structure, you can try locating it using the old structure.

The pages under the Features: Realtime section in the left navigation pane let you see realtime data for the features you are monitoring, including the following.
