License Statistics v6.14 Release Notes

License Statistics version 6.14 includes the new features, enhancements and fixes detailed below. Most of these improvements were made in response to customer feedback. For more information on how we incorporate customer feedback into our development process, see Customer-driven development.

For information about activating your License Statistics license, see Activating a License Statistics license on Windows or Activating a License Statistics license online.

> ⚠️ In addition to learning about the changes in this release, we highly recommend reviewing the License Statistics v6.0 Release Notes, License Statistics v5.15 Release Notes and License Statistics v5.14 Release Notes if you are upgrading from an older version.

New features

License Statistics v6.14 includes the following new features.

> ⓘ Note that some new features are available only when using the new licensing model (2019).

Issue #	Description	New licensing model (2019) only
LICSTAT-19618	Added ability to generate SSL keystore using License Statistics Manager.	
LICSTAT-19538	Added ability to list all users and hosts on License Details chart for new licensing model (2019). > ⓘ Required data is collected from the time of the License Statistics upgrade to v6.14. Historical data prior to v6.14 is not available.	⭐
LICSTAT-19390	Added configurable LDAP schema mapping.	
LICSTAT-18516	Reorganized statistical reports to increase ease of use and reduce redundancy. > ✅ In order to provide a means for existing users to more easily navigate the new structure, a legacy navigation menu will be temporarily provided at the bottom of the navigation pane.	

Enhancements

License Statistics v6.14 includes the following enhancements.

Issue #	Description
User interface	
LICSTAT-19836	Used API v3 only.
LICSTAT-19777	Renamed the *Clear* button to *Delete*.
