

Users Realtime Reservations

The information on this page refers to License Statistics v6.14 and newer, which reorganized reports. If you are using a version previous to v6.14, see Removed Features. Also note that for a limited time, the old menu structure in the License Statistics UI will be retained, so if you cannot locate what you're looking for with the new menu structure, you can try locating it using the old structure.

The **Reservations** page under the **Users: Realtime** section in the left navigation pane gives you an overview of all reservations across all features and license servers for the selected user or user group. See [License Reservations](#) for more information about which license servers support reservations.

General Information

The General Information area at the top of the page lets you select the user or user group to view reservations for and displays details for the selected user, including [matching cloud users](#), if applicable.

User Reservations grid

The User Reservations grid shows the reservation information for the selected user or user group, based on the pattern gathered from queried server.

Reservations For User user1										
	Feature			License Server	Type	Pattern	Total	Remaining	Start Time	Expiration Time
	Name	Version	Type							
1	app2	1.0	Floating	custom	User	user1	5	4		
2	app2	1.0	Floating	custom2	User	user1	5	4		
3	app2	1.0	Floating	custom	Host	host1	1	0		2012-01-01 00:00
4	app2	1.0	Floating	custom2	Host	host1	1	0		2012-01-01 00:00
5	app2	1.0	Floating	custom2	IP	127.0.*.*	1	0	2012-01-01 00:00	2013-01-01 00:00
6	app2	1.0	Floating	custom	IP	127.0.*.*	1	0	2012-01-01 00:00	2013-01-01 00:00

Save As

The User Reservations grid includes the following columns:

Column	Definition
Feature Name, Version, and Type	The feature name, version number and type for the reservation.
License Server	The license server for the reservation.
Type	<div>The type of reservation. License Statistics supports the following reservation types:</div> <ul style="list-style-type: none">UnknownDynamicUserUser GroupHostHost GroupIPProjectDisplay <div>The types of reservations listed depends on the license manager.</div>
Pattern	The pattern (taken from the license server) used for the reserved licenses.
Total	The maximum number of licenses that are reserved.
Remaining	The number of remaining available reservations of each type.
Start Time	The time the reservation became active.
Expiration Time	The time the reservation will expire.

You can add the User Reservations grid to the License Statistics Dashboard. Learn more about [customizing the Dashboard](#).
