License Statistics v6.14 Release Notes

License Statistics version 6.14 includes the new features, enhancements and fixes detailed below. Most of these improvements were made in response to customer feedback. For more information on how we incorporate customer feedback into our development process, see Customer-driven development.

For information about activating your License Statistics license, see Activating a License Statistics license on Windows or Activating a License Statistics license online.

> ⚠ In addition to learning about the changes in this release, we highly recommend reviewing the License Statistics v6.0 Release Notes, License Statistics v5.15 Release Notes and License Statistics v5.14 Release Notes if you are upgrading from an older version.

New features

License Statistics v6.14 includes the following new features.

> ⓘ Note that some new features are available only when using the new licensing model (2019).

Issue #	Description	New licensing model (2019) only
LICSTAT-19618	Added ability to generate SSL keystore using License Statistics Manager.	
LICSTAT-19538	Added ability to list all users and hosts on License Details chart for new licensing model (2019). ⓘ Required data is collected from the time of the License Statistics upgrade to v6.14. Historical data prior to v6.14 is not available.	⭐
LICSTAT-19390	Added configurable LDAP schema mapping.	
LICSTAT-18516	Reorganized statistical reports to increase ease of use and reduce redundancy. ✓ In order to provide a means for existing users to more easily navigate the new structure, a legacy navigation menu will be temporarily provided at the bottom of the navigation pane.	

Enhancements

License Statistics v6.14 includes the following enhancements.

Issue #	Description
User interface	
LICSTAT-19836	Used API v3 only.
LICSTAT-19777	Renamed the *Clear* button to *Delete*.
LICSTAT-19764	Added information about connection credentials on Remote Monitoring tab for Autodesk.
LICSTAT-19732	Added ability to collapse panels.
LICSTAT-19549	Moved License Server status to tooltip on Applications grid.
LICSTAT-19420	Added filter for License Manager Type selection.
LICSTAT-19704	Added ability to delete events from Event Log through a specified date.
LICSTAT-19680	Enabled chart buttons to display on Dashboard when no data is available.
LICSTAT-19595	Added ability to show only borrowed licenses on the following reports: • Features - Realtime - Sessions • Users - Realtime - Sessions

LICSTAT-19587	Denoted features that do not support borrowing with *N/A* on gauge in General Information panel of reports.
LICSTAT-19528	Improved Features - History - Utilization report with the following: • extended chart with automated zooming • renamed columns • added Total Hours column
LICSTAT-19392	Added filters on Features - Realtime - Sessions for columns: • Time Used • Host Qty (Host Quantity)
LICSTAT-19321	Highest License Usage chart extended and moved to Features - Realtime - Sessions.
API	
LICSTAT-19837	Introduced API v3. ⓘ Currently, v2 is fully supported and compatible with v3. However, v2 is marked as deprecated and support for it will be removed in the future.
LICSTAT-19617	Improved Features - History - Utilization endpoints.
LICSTAT-19595	Added possibility to filter only borrowed licenses on the following endpoints: • api/v3/feature/{id}/realtime/sessions/{type} • api/v3/user/{id}/current-usage/{type} • api/v3/user/group/{id}/current-usage/{type}
LICSTAT-19587	Denoted features that do not support borrowing with *N/A.*
LICSTAT-19584	Added validation for imported files.
LICSTAT-19400	Added filter for *Host Quantity* column on api/v3/feature/{id}/realtime/sessions/{type}.
LICSTAT-19394	Restricted access to uptime chart data to administrators only in API v3.
LICSTAT-19373	Added filter for *Time Used* column on api/v3/feature/{id}/realtime/sessions/{type}
License Statistics Manager	
LICSTAT-19834	Improved labels in License Statistics Manager.
LICSTAT-19759	Added Java path configuration option.
License Statistics Agent	
LICSTAT-19682	Upgraded Java to v17.
LICSTAT-19506	Added rejection of agents with redundant (not unique) host names.
Application architecture	
LICSTAT-19852	Upgraded Java to v17.0.1.
LICSTAT-19746	Updated Java licensing policy.
LICSTAT-19734	Added new JAVA_PATH option to xflicstat.cfg configuration file. ⓘ By default, this option is disabled and set to JRE delivered with License Statistics installation.
LICSTAT-19275	Replaced Oracle JDK with Adoptium JRE in the installer.
Additional enhancements	
LICSTAT-19515	Updated EULA.
LICSTAT-19462	Updated *FlexNet* license manager type to *FLEXlm/FlexNet.*
LICSTAT-19491	Removed date time formatting in SQL.

LICSTAT-19364	Replaced xlsx report generator.
