

LM-X License Manager v5.2.3 Release Notes

LM-X License Manager version 5.2.3 includes the fix described below. The improvements in this release were made in response to customer feedback. For more information about how we incorporate customer feedback into our development process, see [Customer-driven development](#).

Fixes

LM-X v5.2.3 includes the following fix.

Issue #	Description
LMX-4320	Fixed issue with license server allocating too much memory for network buffers. Memory allocation now has an upper limit of 2 GB.
