

User interface system requirements

The information on this page is deprecated. Please refer to the [System requirements](#) documentation page.

The [License Statistics UI](#) runs on most popular browsers, including the following:

- Chrome 57+
- Firefox 45+
- Safari 8+
- Opera 43+
- Edge

List of supported, but not recommended browsers:

- Internet Explorer 11+

If you attempt to run License Statistics using an unsupported browser, an error message will warn you that the browser is unsupported. You can either switch to a supported browser (recommended) or attempt to run License Statistics in the unsupported browser anyway (not recommended).

Downloading reports on iPad is available for Safari 13+.
