LMX_OPT_HOSTID_ETHERNET_VIRTUAL_ADAPTER_FILTERING

The information on this page refers to LM-X v5.3.3 or newer, which introduced the LMX_OPT_HOSTID_ETHERNET_VIRTUAL_ADAPTER_FILTERING option. Previously, LMX_Hostid and LMX_HostidSimple returned all ethernet adapters, including virtual ethernet adapters.

eOption	LMX_OPT_HOSTID_ETHERNET_VIRTUAL_ADAPTER_FILTERING This flag filters out virtual ethernet adapters from the HostID list.
pSetting	Possible values: An integer, as follows: 0 (disabled) 1 (enabled) Default value: 0 (disabled)
