

# LMX\_OPT\_HOSTID\_ETHERNET\_VIRTUAL\_ADAPTER\_FILTERING

*The information on this page refers to LM-X v5.3.3 or newer, which introduced the LMX\_OPT\_HOSTID\_ETHERNET\_VIRTUAL\_ADAPTER\_FILTERING option. Previously, LMX\_Hostid and LMX\_HostidSimple returned all ethernet adapters, including virtual ethernet adapters.*

eOption	LMX_OPT_HOSTID_ETHERNET_VIRTUAL_ADAPTER_FILTERING  This flag filters out virtual ethernet adapters from the HostID list.
pSetting	Possible values:  An integer, as follows:  0 (disabled) 1 (enabled)  Default value:  0 (disabled)
