License Statistics v6.17.2 Release Notes

⊘ Due to a critical fix made in License Statistics v6.17.3, License Statistics v6.17.2 is deprecated and no longer available for download. If you have questions, please contact X-Formation Support.

License Statistics version 6.17.2 includes the fixes detailed below. Most of these improvements were made in response to customer feedback. For more information on how we incorporate customer feedback into our development process, see Customer-driven development.

For information about activating your License Statistics license, see Activating a License Statistics license on Windows or Activating a License Statistics license online.

⚠ In addition to learning about the changes in this release, we highly recommend reviewing the License Statistics v6.0 Release Notes, License Statistics v5.15 Release Notes and License Statistics v5.14 Release Notes if you are upgrading from an older version.

⊘ When upgrading from License Statistics v6.17 on Linux, use the automated update with the DEB and RPM installers.
