

LMX_OPT_CUSTOM_SHARE_STRING

e O p t i o n	<p>LMX_OPT_CUSTOM_SHARE_STRING</p> <p>This flag enables a custom sharing string that is used when custom sharing is enabled in the network license. Processes that use the same share string will share the same license unless the HOST and/or USER options are set and the processes have different hosts and/or users. Processes using different share strings will not share licenses.</p> <p>Setting the value to NULL will result in setting it to the default value.</p>
p S e t t i n g	<p>NULL-terminated string.</p> <p>Default value:</p> <p>NULL (Custom sharing not enabled)</p>
