

LMX_OPT_CUSTOM_HOSTNAME

eOption	LMX_OPT_CUSTOM_HOSTNAME This flag sets a hostname that overrides the hostname sent to the license server during checkout. For more information, see Specifying username and hostname for checkouts .
pSetting	NULL-terminated string. Default value: NULL (disabled)

Remarks

The LMX_OPT_CUSTOM_HOSTNAME option can be set only once. If you try to set it more than once, you will get the error LMX_INVALID_PARAMETER.
