LMX_OPT_HOSTID_DISABLED

eOption	LMX_OPT_HOSTID_DISABLED This flag specifies a particular HostID type to remove during checkout. When this flag is set, the specified HostID type is not used during checkout, which can improve performance. Setting this flag to LMX_HOSTID_ALL will disable all HostID types, so that you can set a specific HostID type using LMX_OPT_HOSTID_ENABLED.
pSetting	Enum value of type LMX_HOSTID_TYPE. Default value: None. By default, all HostID types are disabled.
