

Distribution content

The information on this page refers to License Statistics v6.21 or newer, which removed the lacutil and License Activator tools. If you are using a version previous to v6.21, see [documentation for previous versions](#).

The License Statistics distribution contains, among others, the files listed below. (Note that these files may **not** be redistributed.)

Windows Filename(s)	Linux Filename(s)	Description
{ALLUSERSPROFILE}\X-Formation\License Statistics\xlicstat.cfg*	xflicstat.cfg	License Statistics configuration file.
tools/lmx-enduser-tools_version_platform.msi	tools/lmx-enduser-tools_version_platform.sh	LM-X end-user tools installer.
tools/license_statistics_agent_version_win64_x64.msi	<i>Not available under Linux.</i>	The License Statistics Agent tool installer.
manager/LicenseStatisticsManager.exe	<i>Not available under Linux.</i>	The License Statistics Manager tool executable.

* Note that the xflicstat.cfg file is a hidden file in Windows installations of License Statistics v6.6 and newer, which uses the [License Statistics Manager](#) to handle configuration settings and licensing. Direct editing of the xflicstat.cfg file is not recommended unless directed to do so by X-Formation Support.
