

Expiring Features report

! This page refers to functionality that has been removed from License Statistics. Reports have been restructured and reorganized as of License Statistics v6.14. The contents of the Expiring Features report have been moved to [Features - Realtime - Expiring](#).

To see a report on expiring features, select the **Expiring Features** page under the **Reports** section in the left navigation pane.

By default, the Expiring Features grid shows all expiring features. You can see expiring features for a specific license server by selecting it from the **Select License Server** pick list at the top of the page.

The Expiring Features report shows feature details (name, version and type), the vendor of the monitored software and the license server and expiration date for those features.

You can add the Expiring Features report grid and chart to the License Statistics Dashboard. Learn more about [customizing the Dashboard](#).

The color of the text in the Expiration column helps you quickly recognize which licenses are expiring soonest:

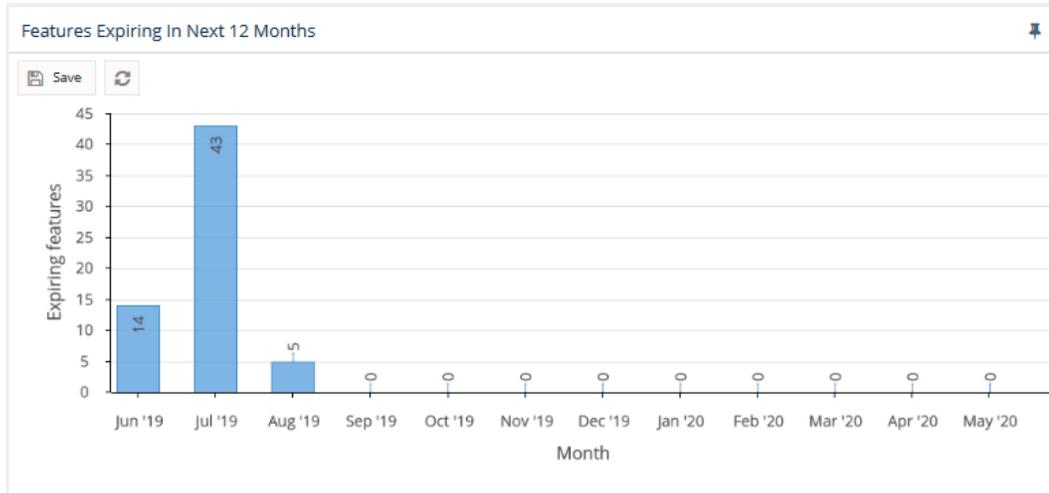

1. **Red:** expires in 0 - 7 days
2. **Orange:** expires in 8 - 30 days
3. **Green:** expires in more than 30 days

Expiring Features						
	Feature			Vendor	License Server	Expiration ↑
	Name	Version	Type			
1	Feature 1	1.0	Floating	X-FORMATION	Server 1	2019-06-30

Features Expiring In Next 12 Months chart

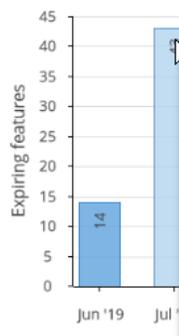

The Features Expiring In Next 12 Months chart shows statistics about features that will expire within 12 months, keeping you informed about monitored licenses that will expire in the coming year so that you can stay on top of license renewal times. You can hover over a specific month in the chart to view more information about a specific feature. The popup that appears shows the same feature-related information as you can find in the Expiring Features grid.
