

Reporting usage statistics for expired features

 This page refers to functionality that has been removed from License Statistics. Reports have been restructured and reorganized as of License Statistics v6.14. See [Feature reports](#).

A warning icon next to the count of Used, Borrowed, and Reserved licenses in the General Information area of the **Features** pages indicates that you are using old licenses that have expired. This happens in cases where:

- The feature expiration date has passed
- The count of active licenses is other than 0

A warning icon  for expired features with active licenses is also visible in the Used column of the [License Server Current Usage](#) grid.

License Server Current Usage										
Feature			Used	Borrowed	Reserved	Total	Utilization ↓	Expiration	Last Update Time	Action
Name	Version	Type								
1 Expired Feature	8	Floating	39 	0	0	79	49.20%	2015-12-15	2019-07-08 09:55
