

License Statistics v5.0.1 Release Notes

License Statistics v5.0.1 is a patch release to fix issues found in previous versions.

Fixes

This release includes the following fixes.

Issue#	Description
LICSTAT-8699	Fixed an issue with Reporting Service failing to detect a current system language different than English, which resulted in the Services's inability to start.
LICSTAT-8684	Eliminated an issue with ">" and "<" characters not being saved in the Saved Queries grid accessible from the SQL Console tab in the Administration page.
