

License Statistics v5.1 Release Notes

License Statistics version 5.1 includes the enhancements and fixes detailed below. Most of these improvements were made in response to customer feedback. For more information on how we incorporate [customer feedback](#) into our development process, see [Customer-driven development](#). For information about activating your License Statistics license, see [Activating a License Statistics license on Windows](#) or [Activating a License Statistics license online](#).

Enhancements

License Statistics v5.1 includes the following enhancements.

Issue#	Description
LICSTA T-9035	Improved Dassault realtime parser for new date format to eliminate parsing failures.
LICSTA T-8908	Introduced officially supported API methods which can be used with custom applications and reports in order to automate report generation by allowing users to generate data from the User History report using API.
LICSTA T-8826	Added Settings panel to the License Server Uptime grid.
LICSTA T-8667	Added the capability to add Error Log to the Dashboard.
LICSTA T-8666	Enabled adding License Server Uptime chart to the Dashboard.
LICSTA T-8665	Added the possibility of adding Feature Information grid on the Current Usage tab in the License Servers page to the Dashboard.
LICSTA T-8226	Enhanced Denials report by introducing grouping by hour, day, week, month, or quarter, as well as adding Grouped Checkout Denials grid and Grouped Checkout Denials chart.
LICSTA T-6339	Added a License Server Link renderer to the Usage Per User report.
LICSTA T-3241	Added the capability to connect to an LDAP server over SSL protocol.

Fixes

License Statistics v5.1 includes the following fixes.

Issue#	Description
LICSTAT-9063	Extended Dassault realtime parser to handle IPv6addresses.
LICSTAT-9014	Eliminated an issue where data in exported Usage Per User report did not correspond to applied grid filters.
LICSTAT-9009	Changed default installation directory on Windows for 64-bit License Statistics from "C:\Program Files (x86)" to "C:\Program Files".
LICSTAT-8838	Fixed an issue with charts having transparent background on export.
LICSTAT-8811	Fixed License Statistics build names (previously, build names were set to the "development" version).
LICSTAT-8758	Corrected tooltip content on "disabled" Uptime tab for the License Server Group.
LICSTAT-8751	Eliminated an issue with a configuration file indicating that supported versions of MySQL were versions higher than 5.5 (in fact, supported versions are 5.5.*.).
LICSTAT-8749	Set SSLProtocol all -SSLv2 -SSLv3 to disable unsafe protocols in License Statistics' Apache for security reasons.
LICSTAT-8717	Disabled unsafe option ProxyRequest in apache configuration.
LICSTAT-8693	Changed background settings for the User History report from grey to white.

LICSTAT-8616	Eliminated a parsing issue which caused the license server status to incorrectly change to UNKNOWN by extending FlexNet realtime parser to support signs previously unsupported.
LICSTAT-8593	Fixed time zones for the Current Users report.
LICSTAT-8174	Eliminated an issue with filtering not working properly in the License Server grid in the Dashboard.
