

LM-X License Manager v4.8.6 Release Notes

LM-X License Manager version 4.8.6 includes the enhancements detailed below. The changes in this release were made primarily in response to customer feedback. For more information about how we incorporate customer feedback into our development process, see [Customer-driven development](#).

Enhancements

LM-X v4.8.6 includes the following enhancements.

Issue #	Description
LMX-2994	Removed static reservations user limit.
LMX-2992	Increased the line length limit in the license server configuration file from 1024 characters to unlimited length.
