

How can I purchase my X-Formation product?

When you are ready to purchase your X-Formation product, you can buy the software by [contacting us](#) or by contacting one of our [resellers](#). You may also fill out an order form that you can find on the Pricing page of each of our [products](#).

To expedite your receipt of the software, we accept purchase orders with 30-day payment terms, unless other payment terms are agreed upon by both parties. The delivery is electronic only and users are normally given access to their X-Formation software on the same day the purchase order is received.

Payment can be made in EUR, USD or DKK using either our US or European bank, as appropriate for your company (banking information will be included in your invoice). In the US, payment may be made by check or bank transfer; elsewhere, payment may be made by bank transfer. Payment can also be made using a credit/debit card.
