

Usage

What is License Activation Center?

[License Activation Center](#) (LAC) is an advanced SaaS solution that lets you enjoy a greatly simplified — yet advanced — license fulfillment process. When coupled with [LM-X License Manager](#), LAC offers an end-to-end software licensing solution for every phase of license management to completely automate license creation and activation.

Can I get a free trial version of License Activation Center?

You can use a free License Activation Center trial by going to the [License Activation Center login page](#). The fully functional trial version lets you:

- Add and manage up to 5 users for unlimited time.
- Use 50 one-time activations for 1 month.

Note: If you don't have one of the license generators supported by LAC (i.e. LM-X License Manager, Reprise License Manager, or FlexNet Publisher), you can obtain it by evaluating [LM-X License Manager](#).

Setting up a test account using License Activation Center is simple:

1. Go to the [License Activation Center login page](#).
2. Click the "Log in as a license administrator" link at the bottom of the login area.

The screenshot shows the 'Welcome to License Activation Center' page. It features a red star logo in the top right corner. The main heading is 'Welcome to License Activation Center'. Below it, the text 'Activate your license by entering the activation key below:' is displayed. There is a text input field labeled 'Activation Key:' and a 'Log In' button below it. At the bottom, there are two links: 'Forgot your activation key? [Get your activation keys.](#)' and 'Are you a software vendor? [Log in as a license administrator.](#)'. The second link is highlighted with a green box.

3. Click the "Sign up" link at the bottom of the login page.

The screenshot shows the 'Welcome to License Activation Center' page. It features a red star logo in the top right corner. The main heading is 'Welcome to License Activation Center'. Below it, the text 'Manage your licenses by logging in below:' is displayed. There are two text input fields: 'Username:' and 'Password:'. Below these fields is a 'Log In' button. At the bottom, there are three links: 'Forgot your password? [Reset your password.](#)', 'Don't have an account yet? [Sign up now.](#)', and 'Are you downloading a software license? [Enter your activation key to get your license.](#)'. The 'Sign up now.' link is highlighted with a green box.

Fill out the request form as instructed, and click Send.

Can License Activation Center produce time-limited temporary licenses?

[License Activation Center](#) (LAC) generates node-locked (local), floating (network) and not specified licenses. For more template-specific information, see [Creating templates for a product](#).

Can I use License Activation Center with external license generators?

License Activation Center can be used with the following license generators:

- LM-X License Manager license generator (xmllicgen)
- FlexNet Publisher
- Reprise License Manager

For more information about license generators, see [Adding and managing license generators](#).

Does License Activation Center work with third-party licensing systems?

License Activation Center can be used with the following license generators:

- LM-X License Manager license generator (xmllicgen)
- FlexNet Publisher
- Reprise License Manager

For more information about license generators, see [Adding and managing license generators](#).

Is License Activation Center a service hosted by X-Formation?

[License Activation Center](#) is available only as a solution hosted by X-Formation at this time.

Does the customer access License Activation Center directly?

Customers access License Activation Center only by using their Activation Key, which you send to them when creating a license order.

Can I run multiple LAC sessions simultaneously using the same credentials?

LAC does not support concurrent logins using the same user credentials.

For more information, see [Creating and managing LAC users](#).
