

License Statistics v5.7 Release Notes

License Statistics version 5.7 includes the enhancements and fixes detailed below. Most of these improvements were made in response to [customer feedback](#). For more information on how we incorporate customer feedback into our development process, see [Customer-driven development](#). For information about activating your License Statistics license, see [Activating a License Statistics license on Windows](#) or [Activating a License Statistics license online](#).

Notice: With this version we're introducing new operating system requirements for running License Statistics. As of now, Linux distributions officially supported by X-Formation are Debian version 7.0 and higher, and Red Hat Enterprise Linux (RHEL) version 6.1 and higher, as detailed in [Operating system and resource requirements](#).

Enhancements

License Statistics v5.7 includes the following enhancements.

Issue #	Description

Fixes

License Statistics v5.7 includes the following fixes.

Issue #	Description
LICSTAT-11747	Fixed an issue with FlexNet realtime parser failing to parse output including a plus sign (+).
LICSTAT-11742	Fixed an issue with report service failing to correctly validate date ranges.
LICSTAT-11736	Fixed an issue with incorrect borrow period shown in License Statistics UI.
LICSTAT-11727	Fixed an issue with License Statistics showing double the actual number of available licenses for FlexNet license server.
LICSTAT-11723	Fixed "No data parsed from the input" parsing error for Reprise License Manager (RLM).
LICSTAT-11681	Fixed an issue with unknown exception for Altair License Manager (ALM).
LICSTAT-11642	Fixed an issue with License Statistics not displaying some feature information for FlexNet license server.
LICSTAT-11639	Fixed a parser issue which resulted in License Statistics' inability to show on the Current Usage page whether the used feature was floating or node-locked.
LICSTAT-11630	Fixed an issue with reserved licenses not appearing in UI for some license managers.
LICSTAT-11540	Fixed an issue with case sensitiveness which occurred when database collation was set to utf8_bin.

LICSTAT-11446	Fixed a problem with parsing some Unicode outputs.
LICSTAT-11422	Fixed a parsing error which resulted in verification failure when adding a FlexNet license server.
LICSTAT-11376	Fixed a parsing failure for Reprise License Manager (RLM).
LICSTAT-11353	Fixed an issue with sorting dates on Usage History Comparison grid.
LICSTAT-11348	Increased parsing timeout limit for Dassault realtime parser.
LICSTAT-11341	Fixed a parsing error caused by using an underscore ("_") with servername for FlexNet license server.
LICSTAT-11287	Fixed an issue with a Java parser for Dassault license server.
LICSTAT-11277	Fixed a problem with a feature column not displaying properly in grid view after the column has been hidden and is being displayed again.
LICSTAT-11241	Fixed an issue with a Java parser using 100% CPU.
LICSTAT-11238	Fixed a connection error which appeared when trying to delete some old data from the database using License Statistics UI.
LICSTAT-11209	Fixed an "Invalid Pointer" error caused by double deleting the statistics data.
LICSTAT-11109	Fixed a problem with importing encrypted FlexNet logs due to parser's inability to not read non-ascii characters.
LICSTAT-11035	Fixed an issue where no username and Logout button were visible in License Statistics demo.
LICSTAT-9846	Fixed missing translation on removing custom SQL query.
LICSTAT-9427 LICSTAT-8218 LICSTAT-9212	Fixed issues with FlexNet report log failing during the import process.
LICSTAT-8743	Fixed an issue with empty outputs visible despite successful verification of FlexNet license server.
