

AddCustomer

The AddCustomer function is used to add a customer, with all supported LAC fields.

This function requires a login token, which is obtained using the [Login](#) function.

See [ID fields](#) for information about using the ID field.

Return values

On failure, the result string contains an error message. See [Return Codes](#) for further information on error messages.

Example request

```
<soapenv:Envelope xmlns:xsi="http://www.w3.org/2001/XMLSchema-instance"
xmlns:xsd="http://www.w3.org/2001/XMLSchema"
xmlns:soapenv="http://schemas.xmlsoap.org/soap/envelope/"
