

License Statistics v5.14.2 Release Notes

License Statistics version 5.14.2 includes the fixes detailed below. Most of these improvements were made in response to [customer feedback](#). For more information on how we incorporate customer feedback into our development process, see [Customer-driven development](#). For information about activating your License Statistics license, see [Activating a License Statistics license on Windows](#) or [Activating a License Statistics license online](#).

In addition to learning about the changes in this release, we highly recommend reviewing the [License Statistics v5.14 Release Notes](#).

Fixes

License Statistics v5.14.2 includes the following fixes.

Issue #	Description
LICSTAT-15004	Fixed an issue with erroneously updating the last update time when query failed.
LICSTAT-15003	Fixed an issue with incorrect license type displayed in the footer.
LICSTAT-15001	Fixed an issue with log level being set too high for expected exit code 1 for some query tools.
LICSTAT-14995	Fixed an issue with case-sensitive lookup when importing license server.
LICSTAT-14991	Fixed an issue with License Activator requiring Visual C++ 2013 Redistributable Packages, which was not part of the installer. License Activator now uses Visual C++ 2015 Redistributable Packages.
LICSTAT-14979	Fixed data insertion failure that sometimes occurred upon the first license server query.
LICSTAT-14977	Fixed an issue with parsing denial logs for Dassault license server.
LICSTAT-14974	Fixed NullPointerException that occurred when inserting data from Sentinel license server.
LICSTAT-14973	Fixed failure to insert data for Dassault license server due to parsed vendor name not matching existing vendor name.
