

Logging into License Statistics

The first time you access License Statistics, your login information is set to:

Username: **admin**

Password: **admin**

Username

admin

Password

.....

Log In

After you log in, License Statistics opens to the [Dashboard](#) page.

After logging in the first time using this default information, you should change your administration password as described in [Changing password](#). If you need to reset the username/password to the default admin/admin, see [Resetting the admin username and password](#).
