Editing feature information

You can edit the feature information that displays in the **Features** pages so the feature is more recognizable.

To edit feature information, click the **Edit** icon on the right end of the General Information title bar from any Feature page:

This opens the Edit Feature dialog:

In the Edit Feature dialog, you can enter/edit the following optional information for the feature:

Field	Description
Display Name	A name for the feature that will be shown in reports. The actual feature name (reported by the license server, and shown in the Name field in this dialog) will be shown in reports if the Display Name is unspecified.
Display Version	A version for the feature that will be shown in reports. The actual feature version (reported by the license server, and shown in the Version field in this dialog) will be shown in reports if the Display Version is unspecified.
Description	A description for the feature that will be shown in reports.
