

User Reservations

The Reservations page under the **Users** section in the left navigation pane gives you an overview of all reservations across all features and license servers for the selected user or user group. See [License Reservations](#) for more information about which license servers support reservations.

General Information

The General Information area at the top of the page lets you select the user or user group to view reservations for and displays details for the selected user, including [matching cloud users](#), if applicable.

User Reservations grid

The User Reservations grid shows the reservation information for the selected user or user group, based on the pattern gathered from queried server.

	Feature			License Server	Type ↑	Pattern	Total	Remaining	Start Time	Expiration Time
	Name	Version	Type							
1	demoapp2	1.0	Floating	custom_reserv	User	user1	5	4		
2	demoapp2	1.0	Floating	custom_reserv	IP	127.0.*.*	1	0	2020-01-01 00:00	2021-07-01 00:00

The User Reservations grid includes the following columns:

Column	Definition
Feature Name, Version, and Type	The feature name, version number and type for the reservation.
Type	<p>The type of reservation. License Statistics supports the following reservation types:</p> <ul style="list-style-type: none"> • Unknown • Dynamic • User • User Group • Host • Host Group • IP • Project • Display <p>The types of reservations listed depends on the license manager.</p>
Pattern	The pattern (taken from the license server) used for the reserved licenses.
Total	The maximum number of licenses that are reserved.
Remaining	The number of remaining available reservations of each type.
Start Time	The time the reservation became active.
Expiration Time	The time the reservation will expire.

You can add the User Reservations grid to the License Statistics Dashboard. Learn more about [customizing the Dashboard](#).
