LAC Dashboard

The first page you see when you log into LAC as an administrator at https://license.x-formation.com is the LAC Dashboard. The Dashboard shows useful information about the licenses that currently exist in LAC, including:

Table	Description
Licenses Activated In Last 30 Days	Gives the following information for all licenses in LAC that have been activated within the past 30 days: • Activation Key • Customer Name • Product Name • Activation Time • Expiration Date
Unactivated Licenses	Gives the following information for all licenses in LAC that are not yet activated: • Activation Key • Customer Name • Product Name • Creation Date
Licenses Expiring Within 30 Days	Gives the following information for all licenses in LAC that will expire within the next 30 days: • Activation Key • Customer Name • Product Name • Activation Time • Expiration Date
Expired Licenses	Gives the following information for all licenses in LAC that have expired: • Activation Key • Customer Name • Product Name • Activation Time • Expiration Date

You can save the information from these tables and other tables in LAC as described in Exporting data from LAC.
