

Get license order

To retrieve a license order with a given activation key, use the following request:

```
GET /license-orders/activation_key
```

where:

- `activation_key` (string) is the [license order](#) activation key.

Request parameters

This request retrieves the license order(s) with the specified activation key, of type string.

Request headers

This request uses a default header of one of the types listed under "Response," below.

Example request

```
GET /rest/v1/license-orders/25N8D-NC35D-WD01P-8JI4K HTTP/1.1
Host: license.x-formation.com
Accept: application/hal+json
```

Response

The LAC REST API returns the standard HTTP response codes described in the following table.

Status Code	Headers	Description
