

# License Statistics v6.10 Release Notes

License Statistics version 6.10 includes the new features, enhancements and fixes detailed below. Most of these improvements were made in response to [customer feedback](#). For more information on how we incorporate customer feedback into our development process, see [Customer-driven development](#).

For information about activating your License Statistics license, see [Activating a License Statistics license on Windows](#) or [Activating a License Statistics license online](#).

In addition to learning about the changes in this release, we highly recommend reviewing the [License Statistics v6.0 Release Notes](#), [License Statistics v5.15 Release Notes](#) and [License Statistics v5.14 Release Notes](#) if you are upgrading from an older version.

## Important

License Statistics Agent v6.10 introduces new functionality. [Update License Statistics Agent](#) on end-user hosts to v6.10 in order to use Application Events reporting and Remote License Releasing features.

## New features

License Statistics v6.10 includes the following new features.

Note that some new features are available only when using the [new licensing model \(2019\)](#).

Issue #	Description	New licensing model (2019) only
LICSTA-T-18487	<p>Introduced remote session closing feature for <a href="#">License Harvesting</a>.</p> <div> After License Harvesting closes an application on the end-user host, License Statistics can automatically force the session to release on the corresponding license server and return the license to the available pool.</div> <p>This feature applies only to LM-X and FlexNet license managers.</p> <div> License Harvesting is a separately purchased add-on that requires the <a href="#">new licensing model</a>. Contact <a href="#">X-Formation Sales</a> to get a 2-month free trial period to check it out!</div>	★
LICSTA-T-18458	Introduced <a href="#">Application Events</a> grid with details about applications monitored using License Harvesting.	★
LICSTA-T-18339	New Session History chart on User History report.	★

## Enhancements

License Statistics v6.10 includes the following enhancements.

Issue #	Description
<b>User interface</b>	
LICSTAT-18459	Ability to view users from cloud monitoring (e.g., Autodesk) that match usernames on end-user hosts was added to the General Information panel of all reports under the Users section (Current Usage, Usage History, Denials and Reservations reports).
LICSTAT-18455	Changed inconsistent translations on License Details page.
LICSTAT-18364	Redesigned User General Information panel to include LDAP details.

LICSTAT-18200	Replaced charts with D3.js implementation, which improves performance and ease of use, for: <ul style="list-style-type: none"> <li>License Usage History</li> <li>Feature Current Utilization</li> <li>Feature Reservation History</li> </ul>
LICSTAT-18032	
LICSTAT-18029	
LICSTAT-18164	Improved notifications for expired maintenance.
LICSTAT-18144	Improved charts height on Dashboard.
LICSTAT-18141	Added titles to charts exported as images.
<b>API</b>	
LICSTAT-18393	Added new endpoint to get events for applications monitored by License Harvesting.
LICSTAT-17792	Added new endpoint to get users from cloud monitoring that match usernames on end-user hosts.
<b>License Statistics Manager</b>	
LICSTAT-18587	License file is now copied to license directory instead of using provided path.
LICSTAT-18436	Added support for Harvesting Agents limit for network licenses.
<b>License Statistics Agent</b>	
LICSTAT-18357	Introduced persistent data storage.
LICSTAT-18356	Introduced menu for License Harvester tray.
LICSTAT-18354	New grid with License Harvester events history.
<b>Application architecture</b>	
LICSTAT-18601	Upgraded LM-X to v4.9.25.
LICSTAT-18513	Upgraded Java JDK to v15.0.1.
LICSTAT-18437	Added support for License Harvesting network license.
LICSTAT-18360	Upgraded ExtJS to v.7.3.1.
LICSTAT-18577	Reintroduced License Activator binary to tools directory for Windows installer.
<b>Removed features</b>	
LICSTAT-18615	End of support for Red Hat Enterprise Linux 6.

## Fixes
