## Saving parser output to a file

You can export and save parser output to a file; for example, X-Formation Support may request this file for troubleshooting.

To save parser output to a file:

- 1. Go to the License Servers page, found under the Administration section in the left navigation pane. (This page is visible only for License Statistics administrator users.)
- 2. Click the Edit icon in the Action column of the License Servers grid row for the license server you want to print parser output for. An Edit License Server dialog opens.
- 3. Open the Remote Monitoring tab, and click Verify at the bottom of the page.

Edit License Server		×
General Remote Monito	ring Importing	
Enable Remote Monit	oring 🕑	
General		
Query Tool Path	./Imxendutil	
Encoding	UTF-8	
Query Interval (Minutes)	01 02 05 010	
Gathering Data	🗹 Usage 🗹 Denials	
Connection		
Redundant		
Hostname	xflicense	
Port (Optional)	6200	
Password (Optional)		
	Verify Save Save and Close Close	

Verification may take a long time depending on the license manager's response time, and the status will show that the server is being verified.

The output should look similar to the following.

Icense Server Remote Monitoring Configuration Verification		
Status 🔮 Success		
Stars Success Output  # Output 1  (*Manuseriseriseriseriseriseriseriseriseriseri
